SUMMARY

Dev/Ops engineering that aims to provide a seamless journey from development to operations with a strong grasp of Web technologies and Cloud Computing SaaS, PaaS, IaaS deployment pipelines. Well-versed in Linux-based OS (Debian, Ubuntu, alpine...), containerization technology (Docker + compose), and cloud vendors (GCP, AWS, Azure, Heroku, Netlify) applied to increase software delivery velocity, improve service reliability. Frequently praised as adaptable by my peers and enjoy working among a progressive team. Additionally has a background in Cloud-Native App Development and MERN stack.

EXPERIENCE

- Serverless Function Developer**11/2021 - 01/2022
DriveLight Worker
A serverless static path API for fetching files from Google Drive API. Made for cloudflare-worker serverless platform
- ReactJS Developer**12/2021 - 12/2021
UpWork - CyperHost
A sample of fast, responsive and 90+ lighthouse score React app being developed for https://cyperhost.com/
- ExpressJS Developer**02/2021 - 05/2021
Peer River
Prototype of ExpressJS app to pipe torrents over http using webtorrent
- React/Next JS Frontend Developer**07/2020 - 09/2020
QuotesWatch
A SPA (Single Page Application) to demonstrate use of NextJS and GCP Firebase service and Firestore NoSQL database to generate webpage with random quote + image of some popular virtual game characters.
Made using NextJs + Firebase Firestore
- ExpressJS REST API Developer**04/2020 - 06/2020
DrivePass
Building REST API endpoints to be consumed by frontend
Creating Reusable interfaces for external services
Token based auth to GoogleApis

EDUCATION

- Computer Science & Engineering - Cloud technology**2022
Jain (Deemed-to-be University) - Bachelor of Technology - BTech
- 12th CBSE - PCM - CS**2017
Mljibhai Mehta International School
- 10th CBSE**2015
Mljibhai Mehta International School

CERTIFICATES

JavaScript Essential Training	07/2021 - Present
Learning Ansible	06/2021 - Present

SKILLS

JavaScript	MongoDB
Typescript	Message Queues
Python	RabbitMQ
NodeJS	Firebase
MySQL	Heroku
NoSQL	Google Cloud Platform
React.js	Amazon Web Services
Apollo GraphQL	Git version control
Express JS	Docker
HTML5	Ansible
CSS3
